How to clean & disinfect

Plexiglass Guards

1

Use an appropriate Bright Solutions disinfectant that works effectively on hard, non-porous surfaces.

2

Put on your safety glasses and gloves.

3

If necessary, dilute disinfectant according to label instructions.

4

Apply the disinfectant to a cloth or sponge and wipe plexiglass surface until thoroughly wet.

**For spray applications, hold 6-8 inches from surface.

5

Allow surface to remain wet. See product label instructions for appropriate dwell time.

6

Wipe dry with a clean cloth or allow to air dry.

7

Do not use abrasive cleaning tools or materials on plexiglass.

**Recommended:
HP202**

Read all product instructions carefully for proper use and maximum effectiveness.
