PRESENTS:

How to clean & disinfect

Restroom Stall Partitions

1

Use an appropriate Bright Solutions disinfectant that works effectively on hard, non-porous surfaces.

2

Put on your safety glasses and gloves.

3

Remove any gross soils from surfaces before disinfectant application.

4

Apply product to the entire surface of the stall partition, including edges and hard-to-reach areas, with a brush, cloth, sponge, or spray device until the surface is thoroughly wet.

For spray applications, hold 6-8 inches from the surface.

5

Allow surface to remain wet. See product label instructions for appropriate dwell time.

6

Flush toilet and wipe down all exterior surfaces with a clean cloth.

**Recommended:
DNA Bathroom
Cleaner**

Read all product instructions carefully for proper use and maximum effectiveness.
