

# How to clean & disinfect Trash/Recycling Receptacles

1

Use an appropriate Bright Solutions disinfectant that works effectively on hard, non-porous surfaces.

2

Put on your safety glasses and gloves.

3

Empty trash can, remove can liner, and clean any gross soils before disinfecting.

4

Consult product label instructions for proper dilution.

5

Spray solution onto the entire surface of the receptacle until thoroughly wet.

For spray applications, hold 6-8 inches from surface.

6

Allow surface to remain wet. See product label instructions for appropriate dwell time.

7

Wipe dry with a clean cloth or allow to air dry.

**Recommended:**

**HP202 or HP202 RTU**

Read all product instructions carefully for proper use and maximum effectiveness.
